Dear FCC,

I have heard that you are considering rolling back the competitive ISP services for the large providers! That is anti-competitive.

We have 2 small businesses which use affordable local internet provider Sonic, who has invested lots in fiber optic for us. I would not want to see the ISP services become a new AT&T, who no one likes or feels is working in our behalf.

Your actions could cause our prices to rise, for which we would always blame AT&T, and their cohorts!

Please don't remove the structure which enables us to compete.

Most Sincerely,

John Murphy
